[Image of Cyndi Rowland models her raffle winnings at the CPD picnic.]

Since our blog writer, Sue Reeves, is on vacation this week, we thought it would be a good time to re-visit some great CPD information pieces you may have missed.

• Read about how CPD early intervention services impact families.
• Learn the different ways our Biomedical unit is impacting research and service.
• Read how CPD real-life experience impacts hundreds of USU students annually.
• Check out how working professionals benefit from CPD training.
• Just for fun, take a look at our photo album of the CPD summer picnic.
