The mission of the Utah Developmental Disabilities Council is to be the state's leading source of critical innovative, and progressive information, advocacy, leadership and collaboration to enhance the lives of individuals with developmental disabilities.

The DD Council is currently seeking input that it will use to develop a five-year plan to advocate, build capacity and encourage systems change to support people with disabilities to fully and independently participate in their communities.

The survey is very short and will provide important information. The CPD encourages all staff and stakeholders to participate.
