March 6th Dennis Odell, Marty Toohill, Vicki Simonsmeier, George Wootton, Clint Field

March 26th-30th CommD staff moves to basement of CPD temporarily during remodel of their building (I only have first names)

April 26-27th Dave Forbush, Leslie Buchanan, Audrey Ward, Tyler Monson, Jeana Cleaver, Kym McClimans (UPDN)

March 26-April 25th Remodel of CPD 311

POSTED January 5, 2018

MOVING SCHEDULE: We are fast approaching the completion of the new CCE building, which means moving offices for much of our staff. Below is a tentative schedule for the upcoming months. The dates listed are subject to change due to construction, movers or carpenters.

March 5-9 – Developmental Behavioral Health Clinic; ABC Classroom & PEER move to Center for Clinical Excellence.

March 16 – Business Office move from CPD West side to CPD East side (movin’ on up to the East side apartment in the sky...OK, you’ll get that reference if you’re old enough). Patti Bodine moves to 2nd floor of CPD.

April 26-27 – UPDN move from Research Parkway to CPD 3rd floor North West side

May 1-11 – Care About Childcare moves out of CPD building

May 14-18 – Reconfiguring cubicles on South end of 1st floor. Move Eduardo Ortiz to CPD 108 and Rikki Wheatley to CPD 109.

May 29-31 – Reconfigure 3 cubicles 3rd floor.

June 1-15 – TAESE move from Research Parkway to CPD 3rd floor South.

June 11 – Little Aggies from STEM to Sound Beginnings

Reminder to those moving out of the CPD building: PLEASE turn in your keys and Prox card to Charlee when you move and she will turn them into Facilities. If you are a student you will need to return them to Facilities in order to get your deposit back. Please notify Charlee when you do this.

POSTED October 20, 2017

PARKING LOT DEMOLITION: THE CPD main entrance to the building has been compromised due to the parking lot being torn up until October 29. This leaves us with limited options to access the building. Employees and clients will have to use the road between the CPD and the dorms on the east as a walkway if they require an accessible route into our building. At certain times of the day this is a very busy road, and it is going to be imperative that we use caution when using this roadway.

Given the current situation, our disabled parking spots are now the farthest distance from the building, not the closest. Please keep an eye out for employees or clients who may need assistance finding the accessible route to our building. If your program has clients that may have problems accessing the building, please reach out to
them and provide them with the necessary directions and supports they need to access our building safely.

**POSTED August 15, 2017**

STEAM PIPE BLOWOUT: Jacobsen Construction will complete a steam pipe blow out tomorrow morning August 16, at 7:30 am. It will occur near the Tanner Fountain just south of the TSC building and will be a very loud continuous noise for 20-30 minutes. Please avoid this area during this time. This is necessary for the contractor to complete the utility work in this area. The steam pipe blow out cleans the newly installed steam piping from debris and keeps our central steam system clean. The utility work in this area is scheduled to be completed by September 15.

**POSTED July 10, 2017**

ROAD CLOSURE: Monday, July 10- Saturday, July 15 at 3 p.m., the road running east/west along the south side of the cemetery will be closed for irrigation work.

**POSTED April 21, 2017**

FIRE ALARM HORN AND STROBE TESTING is scheduled for the CPD building on Friday April 28, at 6:15 am.

CAMPUS STEAM SHUTDOWN: May 7-May 14. There will be no hot water or building heat at the CPD during this period.

**POSTED March 13, 2017**

The annual USU steam shut down for maintenance purposes at the Central Energy Plant and the distribution pipework system will occur, between Sunday, May 7, 2017 and Sunday, May 14, 2017. During this time, there will be No Central Campus Steam, for processes, water heating, showers, cooking, or building heat. Plan accordingly.

**Water Outage:** On Saturday Dec 10, 2016 beginning at 1:15pm until 3:45pm the power will need to be turned off in the building to replace a High Voltage Switch. Please make a note to turn off all equipment Friday night, Dec 09 before you leave the building.

**WATER SHUT DOWN:** On Tuesday November 1, 2016 beginning at 6:00am until 7:00 am the water in the building will be shut down to replace a water meter. During this time, the water will be off. Please plan accordingly.

**POSTED OCTOBER 22, 2016**

Power Outage: The date for the power outage in the building has been changed to 5:30am to 7:30 am on Saturday October 22, 2016.

**POSTED OCTOBER 6, 2016**

On Friday October 21, 2016 beginning at 2:00pm and lasting until Saturday October 22,2016 at 8:00am the power will be down. This is necessary to repair a high voltage switch. During this time, there will be no electricity in the buildings. Please plan accordingly.

**POSTED SEPT 22, 2016**

WATER SHUTDOWN: MONDAY, Sept. 26,2016, from 3:00 p.m. until 7:00 p.m., the domestic water will be shut down to the HSRC building due to the tunnel construction. During this time, there will be no drinking fountains and water in the restrooms. Please plan accordingly.

**POSTED SEPT 21, 2016**

HEATING/COOLING: The HVAC department is working on the 2nd floor for the next few days... continuing on to the 1st floor, then basement. The work on the 3rd floor has been completed. After everything has been installed on all floors, they will hook into the new heating and air conditioning system. At that time, hopefully within a couple weeks, all the thermostats and everything should be working like they’re supposed too. As always……..thank you for your patience!

**POSTED SEPT 12, 2016**

HEATING/COOLING: Since the days are starting to cool down some of you may have noticed your rooms being cooler. At first we thought it was the thermostats but have found out differently. The workers cut through a water line when working on the Tunnel project which somehow affects our heating and air condition system. Of course we didn’t notice before when it was hot out, right?! They’re
supposed to be finished with the Tunnel project by the first part of October. Until then I’m afraid you will need to dress warmer; bring sweaters/jackets; blankets; they won’t be able to fix this problem until they finish the tunnel & hook us up again.

POSTED SEPT 8, 2016

On MONDAY, SEPTEMBER 12 from 4- 7 am THE POWER TO THE ENTIRE HSRC BUILDING WILL BE TURNED OFF. This outage is necessary to repair damaged conduit.

Please plan accordingly.

POSTED SEPT 8, 2016

THE WATER SHUTDOWN PLANNED FOR FRIDAY, SEPT 16 WILL NOT AFFECT THE HSRC.

POSTED AUG 17, 2016

The painters are working in HSRC room 307 today & possibly tomorrow (Aug 16-18). We have a fan to help circulate the air. Also, workers have been using some kind of oil type spray that is causing a strong smell by the basement elevator. Unfortunately both of these things may radiate throughout the entire building for the next few days.

Posted July 28, 2016

BACKFILLING PROJECT: The backfilling of the Tunnel has been delayed. It is expected to start Friday, July 29th and continue thru next Friday, Aug. 5th.

They will possibly begin putting the Footings in on the West Wing of the big hole, which is where the Client Parking Garage this week. Prepare for big pounding and shaking from that project. After they get the West side done, they’ll move to the East.

Within the next couple weeks they will be adding a piece of concrete walkway & move the fencing for access between the Early Childhood building & Edith Bowen.

We have also asked about getting some water to the shrubs, trees and grass on the North and West side of our building!

Charlee keep you informed about specific dates, times, changes, etc., as they are available.

Posted July 27, 2016

The backfilling of the tunnel has NOT started like it was supposed to have yesterday. Tentatively, it will start this Friday, July 29 and continue through next Friday, August 5. They will begin footing on the west wing, which is where the Client Parking Garage will be, possibly this week. Prepare for big pounding and shaking! After the West is done, they will move to the East. Within the next few weeks, they will be adding a piece of concrete walkway and move the fencing for access between the Early Childhood Building and Edith Bowen.

POSTED JULY 26, 2016

The Black parking lot bio-swales are being repaired beginning July 27, 2016. Construction will begin on the east swale and move west until completion. These areas are in the middle of the parking lot and should be coned off during construction. This project is scheduled for completion by the beginning of this fall semester. Please be cautious as you drive through these construction zones.

Posted July 20, 2016

CHILLED WATER SHUTDOWN

On TUESDAY , JULY 26th FROM 6:00AM UNTIL 10:00AM THE CHILLED WATER will go down. This is part of the NE Utility tunnel project. During this time, there will be no cooling for the building.

There will also be extensive early morning noise due to back filling. The contractors will bring in sweepers to keep dirt from building up in the parking lots.

Please plan accordingly.

Posted July 13, 2016

PARKING: The following new designation of Parking Lots should be completed by Aug. 15th:

1. The original Black lot will remain but will be expanded to include what was originally the Blue Lot north of the building. That signage has already been changed to indicate it is Black parking, and you will not be cited for parking there. Students can also park there until August 15.

2. Beginning, August 15, Student parking or Blue permit holders will be moved to the east to the Housing lot with
additional parking by the Tennis Courts. New signage will be completed soon. You can check the parking website www.parking.usu.edu for map updates.

CONSTRUCTION WORK: On Tuesday July 26th there will be extensive early morning noise due to back filling. The contractors are watching the dirt build up in the parking lots. They will bring in sweepers to keep dirt from being in the parking lots so that when it rains again it won’t be mud. Please plan accordingly……..

Posted July 7, 2016

AIR QUALITY: Facilities will bring an Air Monitor for the HSRC building as an extra precautionary device! They built shafts around the Air vents outside of the building to prevent any bad air from coming in but this will be another safety measure.

PARKING: Some of you may have noticed the Blue Lot Parking sign has been taken down. Unfortunately it does not mean it has become the Black Lot……yet! Parking confirmed with me today this will not take place before August 15th.

SHAKE, RATTLE, AND ROLL: The Project Engineer provided some answers about our concerns and the time frames for the shaking and pounding going on: They’re putting in vertical columns, which is part of the trenching system for the tunnel. This is happening right at the S/E corner of our building and will continue through tomorrow, Friday, July 8th.

The week of July 11-15th they will move to another project, so it should be quiet. Starting July 18th, they will return to continue with the tunnel towards the East of us until finished. At this time, we should not be affected as much as what we’re experiencing right now. As for the foundation of the HSRC, he assured us that the footings to our building are exposed enough for the Contractors to know if our foundation is being compromised in any way. Everything is how it should be so far and the work has almost reached the end of our building.

Posted June 20, 2016

REMINDER: On TUESDAY June 21,2016, there will be a power outage from 6:00AM- 7:00AM. This is to tie in power for construction. During this time, there will be no power. Plan accordingly.

Posted June 20, 2016

REMINDER: WATER OUTAGE/HSRC

Water will be shut off in the HSRC on June 22 from 2:00-10:00 p.m. This is to tie in the new water line. During this time, there will be NO water; i.e., no bathroom, drinking fountains, etc. Please plan accordingly.

Posted June 15, 2016

WATER OUTAGE/HSRC

Water will be shut off in the HSRC on June 22 from 2:00-10:00 p.m.

Posted June 15, 2016

POWER OUTAGE/HSRC

A power outage is scheduled for June 21 from 6:00-7:00 a.m.

Posted June 13, 2016

UPDATE ON DEMOLITION SCHEDULE

After being informed earlier today that the CPD demolition would begin tomorrow, we were notified that the demolition will likely start on Wednesday, June 15. IF it happens Wednesday, they will start with the S/E corner and won’t be doing the whole thing at one time. They say it will go through Friday because of issues with getting the water turned off in our building and so on.
**Posted June 13, 2016**

CHILLED WATER OUTAGE - The chilled water will be turned off to the HSRC and Junction on the following dates/times

TUESDAY, JUNE 14TH FROM 6:00PM UNTIL 7:00AM and

WEDNESDAY, JUNE 15TH FROM 6:00PM UNTIL 7:00AM

Please plan accordingly.

---

**Posted June 9: WATER SHUTOFF HSRC**

On FRIDAY, JUNE 17TH AT 2:00PM UNTIL 8:00PM THE WATER TO THE HSRC BUILDING WILL BE TURNED OFF. During this time there will be no water to restrooms, breakrooms, drinking fountains, etc. Please plan accordingly.

---

**Posted June 9: CHILLED WATER OUTAGE to Junction and HSRC on TUESDAY, JUNE 14TH from 6:00PM UNTIL Wednesday 7:00AM. And again on WEDNESDAY, JUNE 15TH, 6:00PM UNTIL 7:00AM Thursday.**

---

**Posted June 9: DEMO UPDATE: It has been determined that they will have the road opened up by end of business 6/13/2016. Along with that the CPD building demolition can commence the morning of 6/14/2016.**

---

**Posted June 8: DEMO UPDATE: The demolition has been delayed until June 15 or later.**

---

**Posted June 8: WATER SHUTOFF-- Just a reminder that the water to the building is scheduled to be shut off today from 2:00-8:00 p.m. Plan accordingly.**

---

**Posted June 7: DEMO DELAYED: UNFORTUNATELY……demo of the CPD will not be happening June 8th due to a Vault lid being made wrong and won’t be made in time. Therefore this causes problems with routing the trucks, etc. so we’ll wait for more details.**

STAND BY for more updates…….
